de ser discutidos

PROCESO PARTICIPATIVO PLAN ESPECIAL DE ORDENACIÓN DEL FRENTE DE PLAYA DE LAS TERESITAS

DIAGRAMA METODOLÓGICO

*[sic] arquitectura y urbanismo slp** is a professional office specialized in architecture, urban planning, landscape and territory projects. The scope of the work are public administration and private companies and individuals.

The aim of the company is the achievement of good-quality projects, attending every single detail within the process and proposing creative, optimum and specific solutions to each scenario, evaluating client requirements, outline conditions, existing assets, economy, etc.

The cross-cutting organization is the real structure of the team group, which allows a rich approaching, idea-exchange and know-how forum in order to find the best solutions and create well-balanced project with strong identity and quality.

The constant compromise with investigation, knowledge and collaborative networks is the source for innovation and creative processes. The research committee [VIC] joins and integrates actions, workshops and theory incorporated in the work lines for architecture discussion, teaching and exhibition of results and conclusions.

SIC* is a professional limited-liability company, Tax ID code: B-85681724. Belongs to Madrid Professional Architecture College (COAM), registration number 70.607 and have an update civil liability insurance.

*¿es posible la innovación en el
espacio público?*

¿quién la realiza?
